Chapter 1 Overview

1.1 Independent Hospital Pricing Authority

The Independent Hospital Pricing Authority (*Pricing Authority*) is established under the *National Health Reform Act 2011* (Cth) (the Act), and by virtue of section 131(1) of the Act is invested with the following functions relevant to this National Efficient Price (*NEP*) Determination 2015 (*Determination*):

- (a) to determine the national efficient price for health care services provided by public hospitals where the services are funded on an activity basis;
- (b) to determine the national efficient cost for health care services provided by public hospitals where the services are block funded;
- (c) to develop and specify classification systems for health care and other services provided by public hospitals;
- (d) to determine adjustments to the national efficient price to reflect legitimate and unavoidable variations in the costs of delivering health care services;
- (e) except where otherwise agreed between the Commonwealth and a state – to determine the public hospital functions that are to be funded in the state by the Commonwealth; and
- (f) to publish a report setting out the national efficient price for the coming year and any other information that would support the efficient funding of public hospitals.

This Determination is the initial output of the performance of those functions by the Pricing Authority.

In this document, 'Pricing Authority' refers to the governing members and 'IHPA' refers to the Agency.

1.2 Data quality

In making this Determination, the Pricing Authority has relied on a number of different data sources.

Costing information used to determine the NEP has been drawn from the National Hospital Cost Data Collection (*NHCDC*) Round 17, as provided by states and territories. Significant improvements in the quality of this data have been noted. IHPA continues to review and refine the classification systems used in the national pricing model. However, the Pricing Authority recognises the limitations of this data and conducted a separate detailed costing study for both non-admitted and sub-acute services. The results of the non-admitted costing study have been used in the development of NEP15.

Notwithstanding these limitations, the Pricing Authority is satisfied that this Determination is fit for use for pricing public hospital services in 2015-16.

1.3 Determination development

In performing the functions outlined above and preparing this Determination, the Pricing Authority has had regard, as required pursuant to sections 131(3) and 132 of the Act, to:

- (a) relevant expertise and best practice within Australia and internationally;
- (b) submissions made at any time by the Commonwealth or a state or territory;
- (c) the need to ensure:
 - (i) reasonable access to health care services;
 - (ii) safety and quality in the provision of health care services;
 - (iii) continuity and predictability in the cost of health care services; and
 - (iv) the effectiveness, efficiency and financial sustainability of the public hospital system;
- (d) the range of public hospitals and the variables affecting the actual cost of providing health care services in each of those hospitals; and
- (e) relevant intergovernmental agreements (including the National Health Reform Agreement 2011 [*NHRA*]).

1.4 Terminology

Although the Pricing Authority aims to use plain English to make its documents accessible to a wide audience, the subject matter of this Determination requires the use of some specialist terms. For ease of reference, the meaning of those terms is set out in an [electronic glossary](#) available on the IHPA website.

Defined terms are capitalised where used throughout this Determination; the first use of any defined term is in italicised text.

Chapter 2 National Efficient Price 2015-16

2.1 The NEP

The NEP is \$4,971 per National Weighted Activity Unit 2015-16 (*NWAU[15]*).

2.2 Calculation of the NEP

The NEP is based on the average cost of public hospital activity in the 2012-13 financial year of \$4,549 per *NWAU(15)*, indexed at a rate of 3.0 per cent per annum.

Consistent with clause B12(e) of the NHRA, in calculating the NEP, the following Commonwealth funded programs have been removed prior to determining the underlying cost data of the 2012-13 reference cost:

- Highly Specialised Drugs – Section 100 Funding (\$770.4 million in the 2012-13 financial year);
- Pharmaceutical Reform Agreements – Efficient Funding of Chemotherapy (Section 100 funding) (\$158.3 million in the 2012-13 financial year);
- Trastuzumab (Herceptin®): HER2 Early Stage Breast Cancer PBS – Herceptin: Early Stage Breast Cancer – Section 100 Funding (\$0.7 million in the 2012-13 financial year); and
- Pharmaceutical Reform Agreements – PBS Access Program (\$112.1 million in the 2012-13 financial year).

Where blood expenditure has been reported in the NHCDC by states and territories this has also been removed, as Commonwealth funding for this program is provided directly to the National Blood Authority. In 2012-13 this amounted to \$34.0 million.

2.3 Price of an ABF activity

The price of an *ABF Activity* is calculated using the following formula, with *Adjustments* applied as applicable:

Price of an admitted acute ABF Activity =

$$\{[(PW \times A_{Paed} \times (1 + A_{SPA}) \times (1 + A_{Ind} + A_A + A_{RT} + A_{Dia}) + (A_{ICU} \times ICU \text{ hours})) - [(PW + A_{ICU} \times ICU \text{ hours}) \times A_{PPS} + LOS \times A_{Acc}]]\} \times NEP$$

Price of an admitted subacute ABF Activity =

$$\{[PW \times (1 + A_{Ind} + A_A)] - [PW \times A_{PPS} + LOS \times A_{Acc}]\} \times NEP$$

Price of a non-admitted ABF Activity =

$$\{PW \times (1 + A_{Ind} + A_{NMC})\} \times NEP$$

Price of an emergency department or emergency service ABF Activity =

$$\{PW \times (1 + A_{Ind})\} \times NEP$$

Where:

A_{Paed}	means the <i>Paediatric Adjustment</i>
A_{SPA}	means the <i>Specialist Psychiatric Age Adjustment</i>
A_A	means each or any <i>Remoteness Area Adjustment</i>
A_{Ind}	means the <i>Indigenous Adjustment</i>
A_{RT}	means the <i>Radiotherapy Adjustment</i>
A_{Dia}	means the <i>Dialysis Adjustment</i>
A_{ICU}	means the <i>Intensive Care Unit (ICU) Adjustment</i>
A_{PPS}	means the <i>Private Patient Service Adjustment</i>
A_{Acc}	means the <i>Private Patient Accommodation Adjustment</i> applicable to the state of hospitalisation and length of stay
A_{NMC}	means the non-admitted <i>Multidisciplinary Clinic Adjustment</i>
ICU hours	means the number of hours spent by a person within a <i>Specified ICU</i>
LOS	means length of stay in hospital (in days)
NEP	National Efficient Price 2015-16
PW	means the Price Weight for an ABF Activity as set out in Appendix H (for admitted acute), Appendix I and J (for admitted subacute and non-acute), Appendix K (for non-admitted), Appendix L (for emergency department) or Appendix M (for emergency services)

In the event that the application of the Private Patient Accommodation Adjustment and the Private Patient Service Adjustment returns a negative NWAU(15) value for a particular patient, the NWAU(15) value is held to be zero - that is, negative NWAU(15) values are not permitted for any patients under the National Pricing Model.

Chapter 3 In-scope public hospital services

3.1 Overall scope

In accordance with Section 131(f) of the Act and Clauses A9–A17 of the NHRA, the scope of 'Public Hospital Services' eligible for Commonwealth funding under the agreement are:

- All admitted programs, including hospital in the home programs. Forensic mental health inpatient services are included;
- All emergency department services; and
- Non-admitted services as defined below.

3.2 Non-admitted services

The listing of in-scope non-admitted services is independent of the service setting in which they are provided (e.g. at a hospital, in the community, in a person's home). This means that in-scope services can be provided on an outreach basis.

To be included as an in-scope non-admitted service, the service must meet the definition of a *Service Event* which is:

“an interaction between one or more healthcare provider(s) with one non-admitted patient, which must contain therapeutic/clinical content and result in a dated entry in the patient’s medical record.”

Consistent with clause A25 of the NHRA, the Pricing Authority will conduct analysis to determine if services are transferred from the community to public hospitals for the dominant purpose of making services eligible for Commonwealth funding.

There are two broad categories of in-scope, public hospital non-admitted services:

- (a) Specialist outpatient clinic services; and
- (b) Other non-admitted patient services.

Category A: Specialist outpatient clinic services – Tier 2 non-admitted services classification – classes 10, 20 and 30

This comprises all clinics in the Tier 2 non-admitted services classification, classes 10, 20 and 30. However, the General Practice and Primary Care (20.06) clinic is considered by the Pricing Authority as not eligible for Commonwealth funding as a public hospital service.

Category B: Other non-admitted patient services and non-medical specialist outpatient clinics (Tier 2 non-admitted services classification class 40)

To be eligible for Commonwealth funding as an other non-admitted patient service or a class 40 Tier 2 non-admitted service, a service must be:

- (a) directly related to an inpatient admission or an emergency department attendance; or
- (b) intended to substitute directly for an inpatient admission or emergency department attendance; or

- (c) expected to improve the health or better manage the symptoms of persons with physical or mental health conditions who have a history of frequent hospital attendance or admission.

In the National Efficient Price Determination 2014-15, IHPA released the second list of non-admitted public hospital services under Category B 'Other non-admitted patient services' in scope for Commonwealth funding under the NHRA. Prior to preparing this Determination (2015-16), jurisdictions were invited to submit evidence for additional services to be included or excluded from that list based on the criteria above.

The following clinics are considered by the Pricing Authority as not eligible for Commonwealth funding as a public hospital service under this category:

- Commonwealth funded Aged Care Assessment (40.02);
- Family Planning (40.27);
- General Counselling (40.33);
- Primary Health Care (40.08).

Interpretive Guidelines for Use

In line with the criteria for Category B, community mental health, physical chronic disease management and community based allied health programs considered in-scope will have all or most of the following attributes:

- Be closely linked to the clinical services and clinical governance structures of a public hospital (for example integrated area mental health services, step-up/step-down mental health services and crisis assessment teams);
- Target patients with severe disease profiles;
- Demonstrate regular and intensive contact with the target group (an average of eight or more service events per patient per annum);
- Demonstrate the operation of formal discharge protocols within the program; and
- Demonstrate either regular enrolled patient admission to hospital or regular active interventions which have the primary purpose to prevent hospital admission.

Chapter 4 Price Weights

4.1 Price Weights

Price Weights expressed as NWAU(15), are set out at Appendices H to M, by classification.

4.2 Classification systems

The classification systems used are:

- (a) Australian Refined Diagnosis Related Groups (*AR-DRG*) version 7.0;
- (b) Australian National Subacute and Non-Acute Patient classification (*AN-SNAP*) version 3.0;
- (c) Tier 2 non-admitted services classification version 4.0;
- (d) Urgency Related Groups (*URG*) version 1.4; and
- (e) Urgency Disposition Groups (*UDG*) version 1.3.

Chapter 5 Adjustments

5.1 Adjustments

Adjustments to Price Weights (expressed as NWAU(15)) are to be applied in the manner and in the order indicated by the formula for determining the NWAU(15) value (price) of an ABF Activity (refer Chapter 2).

5.2 Precedence of Adjustments

To avoid doubt, Adjustments have the following order of precedence of application:

- (a) Paediatric Adjustment; then
- (b) Specialist Psychiatric Age Adjustment; then
- (c) Patient Remoteness Area Adjustment; then
- (d) Indigenous Adjustment; then
- (e) Radiotherapy Adjustment; then
- (f) Dialysis Adjustment; then
- (g) Intensive Care Unit (ICU) Adjustment; then
- (h) Private Patient Service Adjustment; then
- (i) Private Patient Accommodation Adjustment; then
- (j) Multidisciplinary Clinic Adjustment.

Circumstances in which Adjustments are to be applied are described in **Table 1**.

The Pricing Authority recognises that not all hospitals will be able to fully comply with this updated version of the Standards for Round 18, but expects that full compliance will be achieved by NHCDC Round 19.

7.4 Activity Based Funding data set specifications

Full copies of these reference standards are available at www.ihpa.gov.au.

Chapter 8 Back-casting

Clause A40 of the NHRA outlines that where the Pricing Authority makes any significant changes to the ABF classification systems or costing methodologies, the effect of such changes must be back-cast to the year prior to their implementation for the purpose of calculating Commonwealth funding estimates for each ABF service category.

In accordance with Clauses A34(b) and A40 of the NHRA, the Pricing Authority has applied the methodological changes to NEP14 and determined the back-cast NEP14 for the purposes of determining Commonwealth growth funding estimated between 2014-15 and 2015-16 is \$4,826.

In accordance with Clauses A34(c) and A40 of the NHRA, the Pricing Authority has applied the methodological changes to NEP14 and determined the back-casting volume multipliers for NEP14 as detailed in **Table 2**.

A17 List

Under clause A17 of the NHRA, IHPA has also determined a list of services (the ‘A17 list’), which would not normally be considered a public hospital service, but which IHPA is satisfied were provided by a particular hospital in 2010. The services on this list are eligible for Commonwealth funding only at the Local Hospital Network (LHN) indicated in the list.
